**SUBJECT:** Geotechnical Engineering Services Proposal

Design Level Geotechnical Testing

Double Branch - Double Branch Parkway and Boardwalk Way - Lot A

Setter Palm Road, San Antonio, Pasco County, Florida

As requested, Mortensen Engineering, Inc. (MEI) is submitting this proposal to provide design level geotechnical engineering services for the above referenced roadway, associated with the Double Branch project. Based on your request, we understand a two-lane access/collector roadway is planned for the subject project. The work herein is related to customary or normal geotechnical services for civil design and county permitting.

#### Objective of Geotechnical Testing

The objective of our geotechnical work herein will be to obtain information concerning the subsurface soil and groundwater conditions in the proposed roadway area, to make geotechnical engineering estimates and recommendations in each of the following areas:

- 1. Soil stratigraphy/development of the soil profile at the test boring locations to the depths performed.
- 2. Determine the location and description of potentially deleterious subsurface materials or conditions which may interfere with construction progress, based on our test boring findings.
- 3. Provide engineering criteria for the placement and compaction of approved fill materials in the lane addition/widening areas.
- 4. Identify and evaluate the shallow subgrade soil materials and groundwater conditions encountered in the proposed roadway area, at the auger boring locations, for suitability regarding support for various type pavement sections.
- 5. Evaluate the reuse suitability of the shallow soil materials encountered in the roadway area.
- 6. Provide pavement material type design and construction recommendations.
- 7. Determine the current shallow groundwater levels and estimate seasonal high groundwater levels at our test boring locations.

#### **Scope of Geotechnical Services**

We plan to provide the following services, per the site plan provided by Clearview Land Design, P.L., to achieve the proceeding objectives:

- 1. Perform 13 auger borings (per ASTM D1452), each to a depth of 10 feet below the ground surface, along the subject roadway.
- 2. Review recovered soil samples in the laboratory and perform laboratory testing (physical testing per ASTM D2488 and fines content testing per ASTM D1140) on selected representative soil samples to develop soil classifications.
- 3. Perform geotechnical engineering analyses to develop geotechnical engineering recommendations in each of the pertinent areas previously discussed.

4. Prepare a geotechnical engineering report, which summarizes the course of the study pursued, the field and laboratory data generated, subsurface conditions encountered, and our geotechnical recommendations in each of the pertinent topic areas.

#### **Estimated Total Cost**

Our estimated total cost to perform the requested geotechnical services outlined herein is included in Attachment A. Our estimated total cost in Attachment A is based on an anticipated range of subsurface conditions at the site, which were assessed from the regional geology and our experience in the general area. The number of borings and field and laboratory tests are shown in the attachment. If other fieldwork or laboratory tests are determined to be necessary and are authorized, they would be performed at the unit rates shown in the attachment. Our estimated total cost does not include the cost of services required for evaluation of extensive unforeseen subsurface conditions. Should unforeseen conditions be encountered, and additional services are required for evaluation, you will be contacted.

#### **Limitations**

The work herein does not include an environmental site assessment, or any soil radon testing or soil arsenic testing. Depending upon the results of the test borings herein, some additional test borings may be necessary to further evaluate any significant geotechnical concerns. No SPT borings (to the limestone surface) or other geophysical site testing techniques were requested at this time to assess sinkhole potential. Only the shallow subsurface conditions (to the depths proposed herein) will be evaluated and reported for our work herein, unless otherwise requested, as these soils should be within the major influence zone of the proposed construction. No Limerock Bearing Ratio (LBR) testing work is included herein. We assume that all the test boring locations will be accessible. No significant clearing/access cost are included herein. No site restorations are included herein. If temporary borehole casing is needed, then casing unit rate of \$12.00/ft. will apply.

The discussions, evaluations, opinions, and recommendations to be submitted in our summary report (based on the data collected per this contract), will be based solely upon the location and type of construction, whatever information was presented or acquired from the site owner (or representative), and the limited subsurface data obtained from the limited amount of test borings performed at the approximate locations indicated, and at the times tested. The discussions, opinions, evaluations, and recommendations to be provided in our summary report will not reflect any variations or differing subsurface conditions which may occur or be present (left undetected), between test boring locations, or in areas not accessible to testing. Because the study area was previously impacted by various site activities at various times, unusual and significant variations in the subsurface conditions are possible between test locations, which could alter the provided discussions, opinions, evaluations and recommendations, and the level or cost of any corrective actions if appropriate.

It is important to note that test borings reveal the subsurface conditions just at the test location. For a natural site it is appropriate and accepted geotechnical practice to extrapolate subsurface conditions between reasonably spaced test boring locations. For a previously impacted, disturbed or filled site, without adequate geotechnical quality control, such an extrapolation of subsurface conditions between test locations is likely not appropriate. If any subsurface variations (from the data provided in our summary report) become evident during subsequent geotechnical field testing in the future, a reevaluation of the opinions, discussions and recommendations contained in our report (and any future reports) will be necessary.

Our summary report and the work and opinions therein, will be exclusively and solely for the use and benefit of the client. No other entities, individuals or companies have the privilege to rely on our work product and opinions to be provided. In no event and under no circumstances shall MEI have any duty or obligation, or liability to any third party or site purchasing party. Our work, opinions, and report will be performed/prepared in accordance with generally accepted geotechnical engineering principles and practices, consistent with the community of geotechnical consultants performing similar type work, with the limitations noted therein. MEI will use that degree of normal care and skill ordinarily exercised under similar circumstances by members of its profession. No other warranties or representations are expressed or implied.

#### STANDARD GENERAL CONDITIONS

- (1) Consultant's Scope of Services and Additional Services. The Consultant's undertaking to perform professional services extends only to the services specifically described in this Agreement. However, if requested by the Client and agreed to by the Consultant, the Consultant will perform Additional Services, which shall be governed by these provisions. Unless otherwise agreed to in writing, the Client shall pay the Consultant for any Additional Services an amount based upon the Consultant's then-current hourly rates plus an amount to cover certain direct expenses including telecommunications, in-house reproduction, postage, supplies, project related computer time, and local mileage. Other direct expenses will be billed at 1.15 times cost.
- (2) Client's Responsibilities. In addition to other responsibilities described herein or imposed by law, the Client shall:
- (a) Designate in writing a person to act as its representative with respect to this Agreement, such person having complete authority to transmit instructions, receive information, and make or interpret the Client's decisions.
- (b) Provide all information and criteria as to the Client's requirements, objectives, and expectations for the project including all numerical criteria that are to be met and all standards of development, design, or construction.
- (c) Provide to the Consultant all previous studies, plans, or other documents pertaining to the project and all new data reasonably necessary in the Consultant's opinion, such as site survey and engineering data, environmental impact assessments or statements, upon all of which the Consultant may rely.
- (d) Arrange for access to the site and other private or public property as required for the Consultant to provide its services.
- (e) Review all documents or oral reports presented by the Consultant and render in writing decisions pertaining thereto within a reasonable time so as not to delay the services of the Consultant.
- (f) Furnish approvals and permits from governmental authorities having jurisdiction over the project and approvals and consents from other parties as may be necessary for completion of the Consultant's services.
- (g) Cause to be provided such independent accounting, legal, insurance, cost estimating and overall feasibility services as the Client may require.
- (h) Give prompt written notice to the Consultant whenever the Client becomes aware of any development that affects the scope, timing, or payment of the Consultant's services or any defect or noncompliance in any aspect of the project.
- (i) Bear all costs incidental to the responsibilities of the Client.
- (3) **Period of Services.** Unless otherwise stated herein, the Consultant will begin work timely after receipt of a properly executed copy of this Agreement and any required retainer amount. This Agreement is made in anticipation of conditions permitting continuous and orderly progress through completion of the services. Times for performance shall be extended as necessary for delays or suspensions due to circumstances that the Consultant does not control. If such delay or suspension extends for more than six months (cumulatively), Consultant's compensation shall be renegotiated.
- (4) Method of Payment. Compensation shall be paid to the Consultant in accordance with the following provisions:
- (a) Invoices will be submitted periodically for services performed and expenses incurred. Payment of each invoice will be due within 30 days of receipt. The Client shall also pay any applicable sales tax. All retainers will be held by the Consultant for the duration of the project and applied against the final invoice. Interest will be added to accounts not paid within 30 days at the maximum rate allowed by law. If the Client fails to make any payment due to the Consultant under this or any other agreement within 60 days after the Consultant's transmittal of its invoice, the Consultant may, after giving notice to the Client, suspend services and withhold deliverables until all amounts due are paid in full and may commence proceedings, including filing liens, to secure its right to payment under this Agreement.
- (b) If the Client relies on payment or proceeds from a third party to pay Consultant and Client does not pay Consultant's invoice within 90 days of receipt, Consultant may communicate directly with such third party to secure payment.
- (c) If the Client objects to an invoice, it must advise the Consultant in writing giving its reasons within 14 days of receipt of the invoice or the Client's objections will be waived, and the invoice shall conclusively be deemed due and owing. If the Client objects to only a portion of the invoice, payment for all other portions remains due within 30 days of receipt.
- (d) The Client agrees that the payment to the Consultant is not subject to any contingency or condition. The Consultant may negotiate payment of any check tendered by the Client, even if the words "in full satisfaction" or words intended to have similar effect appear on the check without such negotiation being an accord and satisfaction of any disputed debt and without prejudicing any right of the Consultant to collect additional amounts from the Client.
- (5) **Use of Documents.** All documents, including but not limited to drawings, specifications, reports, and data or programs stored electronically, prepared by the Consultant are related exclusively to the services described in this Agreement, and may be used only if the Client has satisfied all of its obligations under this Agreement. They are not intended or represented to be suitable for use, partial use or reuse by the Client or others on extensions of this project or

on any other project. Any modifications made by the Client to any of the Consultant's documents, or any use, partial use or reuse of the documents without written authorization or adaptation by the Consultant will be at the Client's sole risk and without liability to the Consultant, and the Client shall indemnify, defend and hold the Consultant harmless from all claims, damages, losses and expenses, including but not limited to attorneys' fees, resulting therefrom. The Consultant's electronic files and source code developed in the development of application code remain the property of the Consultant and shall be provided to the Client only if expressly provided for in this Agreement. Any electronic files not containing an electronic seal are provided only for the convenience of the Client, and use of them is at the Client's sole risk. In the case of any defects in the electronic files or any discrepancies between them and the hardcopy of the documents prepared by the Consultant, the hardcopy shall govern. Because data stored in electronic media format can deteriorate or be modified without the Consultant's authorization, the Client has 60 days to perform acceptance tests, after which it shall be deemed to have accepted the data.

- (6) **Opinions of Cost.** Because the Consultant does not control the cost of labor, materials, equipment, or services furnished by others, methods of determining prices, or competitive bidding or market conditions, any opinions rendered as to costs, including but not limited to opinions as to the costs of construction and materials, shall be made on the basis of its experience and represent its judgment as an experienced and qualified professional, familiar with the industry. The Consultant cannot and does not guarantee that proposals, bids or actual costs will not vary from its opinions of cost. If the Client wishes greater assurance as to the amount of any cost, it shall employ an independent cost estimator. Consultant's services required to bring costs within any limitation established by the Client will be paid for as Additional Services.
- (7) **Termination.** The obligation to provide further services under this Agreement may be terminated by either party upon seven days' written notice in the event of substantial failure by the other party to perform in accordance with the terms hereof through no fault of the terminating party, or upon thirty days' written notice for the convenience of the terminating party. If any change occurs in the ownership of the Client, the Consultant shall have the right to immediately terminate this Agreement. In the event of any termination, the Consultant shall be paid for all services rendered and expenses incurred to the effective date of termination, and other reasonable expenses incurred by the Consultant as a result of such termination. If the Consultant's compensation is a fixed fee, the amount payable for services will be a proportional amount of the total fee based on the ratio of the amount of the services performed, as reasonably determined by the Consultant, to the total amount of services which were to have been performed.
- (8) **Insurance.** The Consultant carries Workers' Compensation (\$500,000), automobile (\$500,000), general liability (\$1,000,000), umbrella (\$5,000,000) and professional liability (\$1,000,000) insurance limits per claim. If the Client directs the Consultant to obtain increased insurance coverage, the Consultant will take out such additional insurance, if obtainable, at the Client's expense.
- (9) **Standard of Care.** The standard of care applicable to Consultant's services will be the degree of care and skill ordinarily exercised by consultants performing the same or similar services in the same locality at the time the services are provided. No warranty, express or implied, is made or intended by the Consultant's undertaking herein or its performance of services, and it is agreed that the Consultant is not a fiduciary with respect to the Client.
- (10) LIMITATION OF LIABILITY. In recognition of the relative risks and benefits of the Project to the Client and the Consultant, the risks have been allocated such that the Client agrees, to the fullest extent of the law, and notwithstanding any other provisions of this Agreement or the existence of applicable insurance coverage, that the total liability, in the aggregate, of the Consultant and the Consultant's officers, directors, employees, agents, and subconsultants to the Client or to anyone claiming by, through or under the Client, for any and all claims, losses, costs or damages whatsoever arising out of, resulting from or in any way related to the services under this Agreement from any cause or causes, including but not limited to, the negligence, professional errors or omissions, strict liability or breach of contract or any warranty, express or implied, of the Consultant or the Consultant's officers, directors, employees, agents, and subconsultants, shall not exceed twice the total compensation received by the Consultant under this Agreement or \$50,000, whichever is greater. Higher limits of liability may be negotiated for an additional fee. Under no circumstances shall the Consultant be liable for extra costs or other consequences due to changed conditions, or for costs related to the failure of contractors to perform work in accordance with the plans and specifications. This Section 10 is intended solely to limit the remedies available to the Client or those claiming by or through the Client, and nothing in this Section 10 shall require the Client to indemnify the Consultant. THE CLIENT AGREES THAT PURSUANT TO FLORIDA STATUTES SECTION 558.0035 (2013) AN INDIVIDUAL EMPLOYEE OF OR AGENT FOR CONSULTANT MAY NOT BE HELD INDIVIDUALLY LIABLE FOR NEGLIGENCE.

- (11) Mutual Waiver of Consequential Damages. In no event shall either party be liable to the other for any consequential, incidental, punitive, or indirect damages including but not limited to loss of income or loss of profits.
- (12) **Certifications.** The Consultant shall not be required to execute certifications or third-party reliance letters that are inaccurate, that relate to facts of which the Consultant does not have actual knowledge, or that would cause the Consultant to violate applicable rules of professional responsibility.
- (13) **Dispute Resolution.** All claims by the Client arising out of this Agreement or its breach shall be submitted first to mediation in accordance with the Construction Industry Mediation Procedures of the American Arbitration Association as a condition precedent to litigation.
- (14) **Hazardous Substances and Conditions.** In no event shall Consultant be a custodian, transporter, handler, arranger, contractor, or remediator with respect to hazardous substances and conditions. Consultant's services will be limited to professional analysis, recommendations, and reporting, including, when agreed to, plans and specifications for isolation, removal, or remediation. The Consultant shall notify the Client of hazardous substances or conditions not contemplated in the scope of services of which the Consultant becomes aware. Upon such notice by the Consultant, the Consultant may stop affected portions of its services until the hazardous substance or condition is eliminated.

#### (15) Construction Phase Services.

- (a) If the Consultant's services include the preparation of documents to be used for construction and the Consultant is not retained to make periodic site visits, the Client assumes all responsibility for interpretation of the documents and for construction observation and testing, and the Client waives any claims against the Consultant in any way connected thereto.
- (b) If the Consultant provides construction phase services, the Consultant shall have no responsibility for any contractor's means, methods, techniques, equipment choice and usage, sequence, schedule, safety programs, or safety practices, nor shall Consultant have any authority or responsibility to stop or direct the work of any contractor. The Consultant's visits will be for the purpose of endeavoring to provide the Client a greater degree of confidence that the completed work of its contractors will generally conform to the construction documents prepared by the Consultant. Consultant neither guarantees the performance of contractors, nor assumes responsibility for any contractor's failure to perform its work in accordance with the contract documents.
- (c) The Consultant is not responsible for any duties assigned to the design professional in the construction contract that are not expressly provided for in this Agreement. The Client agrees that each contract with any contractor shall state that the contractor shall be solely responsible for job site safety and for its means and methods; that the contractor shall indemnify the Client and the Consultant for all claims and liability arising out of job site accidents; and that the Client and the Consultant shall be made additional insureds under the contractor's general liability insurance policy.
- (16) No Third-Party Beneficiaries; Assignment and Subcontracting. This Agreement gives no rights or benefits to anyone other than the Client and the Consultant, and all duties and responsibilities undertaken pursuant to this Agreement will be for the sole benefit of the Client and the Consultant. The Client shall not assign or transfer any rights under or interest in this Agreement, or any claim arising out of the performance of services by Consultant, without the written consent of the Consultant. The Consultant reserves the right to augment its staff with subconsultants as it deems appropriate due to project logistics, schedules, or market conditions. If the Consultant exercises this right, the Consultant will maintain the agreed-upon billing rates for services identified in the contract, regardless of whether the services are provided by in-house employees, contract employees, or independent subconsultants.
- (17) **Confidentiality.** The Client consents to the use and dissemination by the Consultant of photographs of the project and to the use by the Consultant of facts, data and information obtained by the Consultant in the performance of its services. If, however, any facts, data or information are specifically identified in writing by the Client as confidential, the Consultant shall use reasonable care to maintain the confidentiality of that material.
- (18) **Miscellaneous Provisions.** This Agreement is to be governed by the law of the State of Florida. This Agreement contains the entire and fully integrated agreement between the parties and supersedes all prior and contemporaneous negotiations, representations, agreements, or understandings, whether written or oral. Except as provided in Section 1, this Agreement can be supplemented or amended only by a written document executed by both parties. Provided, however, that any conflicting or additional terms on any purchase order issued by the Client shall be void and are hereby expressly rejected by the Consultant. Any provision in this Agreement that is unenforceable shall be ineffective to the extent of such unenforceability without invalidating the remaining provisions. The non-enforcement of any provision by either party shall not constitute a waiver of that provision.

#### SECTION 2. DUTIES.

**A.** The duties, obligations, and responsibilities of the Contractor are to provide the construction materials, labor, experience and services for lift station access as described in **Exhibit A**, attached hereto and incorporated herein.

- B. The Contractor shall be solely responsible for the means, manner, and methods by which its duties, obligations, and responsibilities in connection with completion of the Project are met to the satisfaction of the District. The Contractor shall use all due care to protect the property of the District, its residents and landowners from damage. The Contractor agrees to repair any damage resulting from the Contractor's activities and work within three (3) business days and shall notify the District immediately of any such impairments provided that such repairs must be completed immediately if the damages create safety hazards or impair essential operations. The Contractor shall ensure that all equipment is operated only by individuals holding the proper licenses for such operation.
- C. At all times the Contractor agrees to coordinate its activities at and around the District through the District's designee, **Doug South** (the "Designee"). The Project provided hereunder must be coordinated with the District's Designee. Such coordinated requests include, but are not limited to, commencement and completion of the Project, scheduling deliveries of materials, start and end of the workday, clean-up, inspections, and other reasonable requests. The Contractor shall notify the District's Designee in writing immediately upon recognizing any potential for a delay delivering the Project caused by itself or another contractor. - G. The Contractor shall keep the premises and surrounding area free from accumulation of waste materials or rubbish caused by operations under this Agreement. Additionally, the Contractor must clean mud and debris from and repair any damage to the District streets used as access to and from the building site. At completion of the Project, the Contractor shall remove from the site all waste

materials, rubbish, tools, construction equipment, machinery and surplus materials. If the Contractor fails to clean up as provided in this Agreement, the District may do so and the cost thereof, if any, shall be reimbursable by the Contractor.

- C. If the District should desire additional services, the Contractor agrees to negotiate in good faith to undertake such additional work or services. However, no additional services shall be provided by the Contractor prior to the Parties' successful negotiations of the additional terms and compensation. Upon successful negotiations, the Parties shall agree in writing to an addendum, addenda, or change order(s) to this Agreement. The Contractor shall be compensated for such agreed upon additional services upon mutual terms agreeable to the Parties and agreed to in writing.
- D. The District may require, as a condition precedent to making any payment to the Contractor, that all subcontractors, material men, suppliers or laborers be paid and require evidence, in the form of Lien Releases or partial Waivers of Lien, to be submitted to the District by those subcontractors, material men, suppliers or laborers, and further require that the Contractor provide an Affidavit relating to the payment of said indebtedness. Further, the District shall have the right to require, as a condition precedent to making any payment, evidence from the Contractor, in a form satisfactory to the District, that any indebtedness of the Contractor, as to services to the District, has been paid and that the Contractor has met all of the obligations with regard to the withholding and payment of taxes, Social Security payments, Workers' Compensation, Unemployment Compensation contributions, and similar payroll deductions from the wages of employees.

SECTION 5. TERMINATION. The District agrees that the Contractor may terminate this Agreement for cause by providing thirty (30) days' written notice of termination to the District; provided, however, that the District shall be provided a reasonable opportunity to cure any failure under this Agreement. The Contractor agrees that the District may terminate this Agreement immediately for cause by providing written notice of termination to the Contractor. The District shall provide fifteen (15) days' written notice of termination without cause. Upon any termination of this Agreement, and as the Contractor's sole and exclusive remedy for any termination hereunder, the Contractor shall be entitled to payment for all services rendered up until the effective termination of this Agreement, subject to whatever claims or off sets the District may have against the Contractor.

SECTION 6. WARRANTY. The Contractor warrants to the District that all materials furnished under this Agreement shall be new, and that all services, including specifically all construction and installation services contemplated and/or provided hereunder, and all materials shall be of good quality and free from faults and defects. The Contractor hereby warrants all materials, services and workmanship for one (1) year from the date of final acceptance by the District and explicitly includes labor costs for warranty repairs. Contractor agrees to assign any and all of the materials and manufacturers' warranties to the District. Neither final acceptance of the Project, nor final payment therefore, nor any provisions of this Agreement shall relieve the Contractor of responsibility for defective or deficient materials or services. If any of the services provided under this Agreement are found to be defective, deficient or not in accordance with the Agreement, the Contractor shall correct, remove and/or replace such services and/or materials promptly after receipt of a written notice from the District and to correct and pay for any other damage resulting therefrom to the District property or the property of landowner's within the District such that the District receives the maximum benefit of the completed Project contemplated by this Agreement.

The Contractor hereby covenants to the District that it shall perform the services necessary to complete the Project: (i) using its best skill and judgment and in accordance with generally accepted professional and design standards and practices for projects of similar design and complexity as the development occurring within the District; (ii) in compliance with all applicable federal, state, county, municipal, building and zoning, land use, environmental, public safety, non-discrimination and disability accessibility laws, codes, ordinances, rules and regulations, including, without limitation, all professional registration (both corporate and individual) for all required basic disciplines that it shall perform; and (iii) in an expeditious and economical manner consistent with the best interest of the District. The Contractor hereby covenants to the District that any work product of the Contractor shall not call for the use of, nor infringe, any patent, trademark, services mark, copyright or other proprietary interest claimed or held by any person or business entity absent prior written consent from the District.

On MOTION by Mr. Wolf and seconded by Mr. Brown, with all in favor, Resolution 2025-03, Electing, as nominated, and Removing Officers of the District and Providing for an Effective Date, was adopted.

#### SIXTH ORDER OF BUSINESS

Consideration of Response(s) to Request for Qualifications (RFQ) for Engineering Services

- A. Affidavit of Publication
- 84 B. RFQ Package
- 85 C. Respondents
- 86 I. NV5, Inc.
- 87 II. Poulos & Bennett, LLC
- 88 III. Heidt Design, LLC
- 89 D. Competitive Selection Criteria/Ranking
- 90 E. Award of Contract

Ms. Rinaldi stated Staff issued an RFQ for Engineering Services and the responses are included in the agenda package. The CDD has a great District Engineer in Clearview; however, the Board can decide to enter into a continuing services agreement with one of the other engineering firms but the CDD would not be obligated to use them; the District could have them under contract but not utilize their services. This item is on the agenda for consideration and discussion but the Board can choose to defer it.

On MOTION by Mr. Wolf and seconded by Mr. Brown, with all in favor, electing deferring consideration of the responses to the RFQ for Engineering Services, was approved.
